Free Design Service

All of the items in this brochure are produced with care to our own designs here in our workroom.

We can usually adapt designs to suit your needs if you ask us, eg: more pearl or crystal, a particular shape or height of tiara. We can also make something just for you to your own ideas – just phone or email and let us know your thoughts.

1. **NLILY: "Illusion style Y-shape Necklace"** – Dainty freshwater pearls at intervals along almost invisible monofilament, with a central 2-strand Y-dropper section (4-5cms) with natural larger oval shaped feature freshwater pearls at the very ends. Shown here with ivory freshwater pearls, but there are lots of variations available - such as peacock black pearls, grey pearls, pink pearls, or ivory pearls with a clear or coloured crystal. Email or phone if you require other than the standard ivory pearls to check availability. **Price: £15.00**

Recommended co-ordinating bracelet: page 4, item 4. This is a 3-strand illusion pearl bracelet, although a single strand works well for the necklace it can look lost on the wrist!

2. **TILE: "Large Exotic Flower Tiara"** – An unusual tiara with lots of impact, this tiara is worn with the flower detail off centre to one side of the head. The flower itself (approx 12x9cms) comprises a double layer of curving petals with individual crystal tips. The outer layer of 5 larger petals is clear Swarovski crystal, and this gives definition to the overall shape. The 5 inner (smaller) petals can be any crystal colour you would like, or small freshwater pearls if preferred. The very centre of the flower features stems of diamante sprays. The tiara band is fully decorated with clear crystals. Gold or Silver finish. **Price: £59.00**

Note: our smaller version "Small Exotic Flower" can be found on page 6.

3. **TISB: "Centre Starburst Tiara"** – Branches of ivory freshwater pearls, clear crystals in various shapes and sizes including eye-catching Swarovski melon shaped beads, all radiate outwards from a centre point in a starburst shape. Height about 3cms above and below the band, this tiara is not too tall or wide. It can be worn in the traditional tiara position, or flatter to the head in the band style. Gold or Silver finish. **Price £39.00**

4. **TIFC: "Feather and Crystal Tiara"** The detail on this design is worn to one side (off centre) and begins just above the ear, then covers the band to a little past the central point. Most of the feathers follow the natural curve of the band, although we like to have some arching upwards/downwards to give a little added interest and height (just a few centimetres, this isn't a tall design), very light and comfortable. You can alter the way the feathers lie simply by changing the angle you wear the band on the head, or which side you wear it. There are two different shapes of feathers (short and wispy, and longer structural ones), and at intervals we've also added clusters of sparkling diamante and clear crystal (some coloured crystal to tone with the feathers too). There are even some individual larger crystals on twisted wire cork-screw shapes which really add to the textured effect. For the longer feathers please choose colour from the list on page 2, item 6 (Feather and diamante haircomb), and we'll select the shorter wispiest ones which will tone the best depending on availability. You can also choose your own crystal colour from those on page 5, or leave it to us to select the nearest to the feather colour for you. This item is currently only available in Silver finish, please enquire if you require Gold finish. **Price: £29.00**
